What is Economics?

Economics is the social science that studies how individuals, firms, and governments make choices to allocate scarce resources to satisfy their unlimited wants and needs. It examines both the decision-making processes and the outcomes of these choices.

Types of Economics

Kennedy distinguishes between two main branches:

- Microeconomics:** Focuses on individual agents such as households and firms,

Kennedy's notes emphasize key terms and their significance. **Scarcity and Choice** Scarcity refers to the limited availability of resources relative to unlimited wants. Because resources are finite, choices must be made, leading to opportunity costs—the value of the next best alternative foregone. **Opportunity Cost** The cost of forgoing the next best option when making a decision. Recognizing opportunity costs helps in making rational choices. **Supply and Demand** The core mechanism influencing prices and quantities in markets: **Demand:** The quantity of a good or service consumers are willing and able to purchase at various prices. **Supply:** The quantity producers are willing and able to sell at various prices. **Equilibrium Price:** The price at which the quantity demanded equals the quantity supplied. **Market Equilibrium and Price Mechanism** Markets tend toward equilibrium through price adjustments, balancing supply and demand. Price acts as a signal guiding resource allocation. **Economic Systems and Structures** Kennedy outlines different economic systems and how they organize economic activity. **Types of Economic Systems** **Market Economy:** Decisions are driven by individual choices and market forces; minimal government intervention. **Command Economy:** The government controls resources and makes most economic decisions. **Mixed Economy:** Combines elements of both market and command systems. **Market Structures** Understanding how firms compete is vital: **Perfect Competition:** Many firms, identical products, free entry and exit. **Monopoly:** Single firm controls the entire market. **Oligopoly:** Few firms dominate the market. **Monopolistic Competition:** Many firms sell differentiated products. **Macroeconomic Indicators and Policies** Kennedy emphasizes the importance of macroeconomic indicators in assessing economic health and guiding policy decisions. **Key Indicators** **Gross Domestic Product (GDP):** Total value of all goods and services produced within a country over a period. **Unemployment Rate:** Percentage of the labor force that is unemployed and actively seeking work. **Inflation Rate:** The rate at which the general price level for goods and services rises. **Balance of Payments:** Record of all economic transactions between a country and the rest of the world. **Fiscal and Monetary Policies** **Fiscal Policy:** Government adjusts spending and taxation to influence the economy. **Monetary Policy:** Central bank manages money supply and interest rates to stabilize the economy. **Market Failures and Government Intervention** Kennedy's notes explore situations where markets fail to allocate resources efficiently and the role of government in correcting these failures. **Types of Market Failures** **Public Goods:** Non-excludable and non-rivalrous goods, leading to free-rider problems. **Externalities:** Costs or benefits of economic activities not reflected in market prices. **Negative Externalities:** Pollution, for example. **Positive Externalities:** Education, vaccination. **Information Asymmetry:** When one party has more or better information than the other. **Government Policies to Address Failures** **Regulation and legislation** **Taxation and subsidies** **Provision of public goods** **Creating awareness to reduce information asymmetry** **Economic Growth and Development** Kennedy highlights factors contributing to economic growth and strategies for sustainable development. **Determinants of Economic Growth** **Capital accumulation** **Technological innovation** **Human capital development** **Institutional quality** **Challenges to Growth** **Poverty and inequality** **Environmental degradation** **Political instability** **Inadequate**
